

Important Information about Physicians Providing Services at St. Mary's Healthcare

It is important for you to know that the physician services provided in the hospital are billed separately from the services provided by St. Mary's Hospital. It is very likely that you will receive services from physicians who provide services at the hospital that are employed by the hospital, contracted by the hospital to provide services or are independent voluntary physicians. These physicians bill for their services separately and may or may not participate in the same health plans as the hospital. Below is a list of physicians you may receive services from and how to determine the health care plans in which they participate. You should also check with the physician arranging for your hospital services to determine whether the services of any other physicians will be required for your care. Your physician can provide you with the name, practice name, mailing address and telephone number of any physicians whose services may be needed that are not listed below. Questions regarding this list can be directed to the Director of Payer Contracting at 518-841-7442.

Physician / Physician Practice	Relationship to St. Mary's Healthcare	How to determine which health plans with which they participate
